

The Italian Chapter of IEEE Magnetics Society wants to reward scientific activity performed by young researchers in the field of magnetism.

With this aim, the Chapter presents, for the fourth year, an award addressed to a researcher who has published outstanding research about magnetism and related topics in the last years on IEEE Transactions on Magnetics or IEEE Magnetics Letters.

Application process and requirements for 2019 award:

- Deadline for application is 20th of November, 2019
- Applicants should be Members of the IEEE Italy Section and of the IEEE Magnetics Society
- Applicants should be no older than 40 years old at the 20th of November, 2019
- Applicants should be under-graduate students, PhD students or post-docs
- Application has to be sent via e-mail to the Chair of the IEEE Magnetics Society – Italy Chapter, prof. Giovanni Finocchio (gfinocchio@unime.it)
- The application has to include a detailed CV, including date of birth and information about IEEE membership, and a scientific paper. The paper should be an original research work in the field of magnetism which has been already published on IEEE Transactions on Magnetics or IEEE Magnetics Letters during the years 2017-2019
- The Commission which will select the 2019 award winner is composed by prof. Zhongming Zeng (Suzhou Institute of Nano-tech and Nano-bionics, China), prof. Ozhan Ozatay (Bogazici University, Turkey), prof. Eduardo Martinez (University of Salamanca, Spain). The Commission will evaluate the applicants, based on a set of criteria, including the relevance of the work and its scientific impact.
- Results of the selection will be communicated to applicants by the 30th of November.
- The award will consist of €500 and a plaque addressed to the researcher. The winner researcher will also have the opportunity to give a talk about the submitted paper during the annual meeting of the IEEE Magnetics Society – Italy Chapter, which will be held in Bari on the 17th of December, 2019.
