Three types of activities:

VIRTUAL	they go on the virtual platform, virtual speakers present their works and reply to questions, in presence speakers will be available only for questions
HYBRID	they also go on the virtual platform, in presence speakers present their works and reply to questions
IN PERSON	only for participants in presence

Other notes

LIVE SESSIONS are scheduled with two simultaneous technical sessions on the virtual platform
Both virtual and in presence speakers should be ready for their talks at the beginning of their session.

The order of presentations in each session will follow the numbering in the list of presentations (you can find the list of presentations in the same webpage of the program).

Virtual Room dedicated
